Hi Ganesh Bro,

I have organized the **MatAi 2027 website structure** using two different colours for easy identification.

🟢 GREEN COLOUR — MAIN WEBSITE PAGES

The following are the **main navigation/page names** of the website:

- HOME
- ABOUT THE CONFERENCE
- SCIENTIFIC COMMITTEE
- SPEAKERS
- ABSTRACT SUBMISSION
- VENUE
- INFORMATION
- SPONSORS & EXHIBITION
- REGISTRATION
- CONTACT

These **Green-coloured items should be treated as the main website pages/navigation menu**.

🟡 YELLOW COLOUR — SUBTOPICS / SECTIONS

The items marked in **Yellow** are the **subtopics or sections that belong to the respective main pages**.

Please organize these Yellow sections under their corresponding Green main page. They should be used as:

- Page sections
- Dropdown menu items, where appropriate
- Sub-pages, if required by the website structure
- Internal navigation/anchors, depending on the final website design

IMPORTANT — PLEASE CHECK THE STRUCTURE

Please review the complete list carefully and check whether:

1. Every Yellow subtopic is placed under the correct Green main page.
2. There are any duplicate or repeated sections.
3. Any page or subtopic appears to be missing.
4. Any title or section name needs clarification.
5. Any section should be a separate page instead of a subsection.
6. The overall navigation structure is technically suitable for the website.

I have already organized the content according to the intended website structure, so please **follow the Green and Yellow colour coding when developing the website**.

If you have **any doubts, confusion, missing information, or questions about where a particular section should be placed**, please contact me before making changes to the structure.

Please do not remove, rename, merge, or relocate any section without confirming with me first.

Thank you.

Advancing Materials Innovation through Science, Engineering & Artificial Intelligence

MATAI 2027 — the International Conference on Materials Science, Engineering & Artificial Intelligence — provides an international platform for researchers, scientists, engineers, academics, technology experts, and industry professionals to exchange knowledge and present advances across the rapidly evolving fields of materials science, engineering, and artificial intelligence.

The conference focuses on the convergence of advanced materials research, engineering innovation, computational methodologies, and artificial intelligence, with particular emphasis on emerging approaches to materials discovery, design, modelling, characterization, manufacturing, and sustainable technological development.

MATAI 2027 brings together diverse scientific perspectives to examine how data-driven methods, machine learning, computational materials science, and intelligent engineering are reshaping the way advanced materials and next-generation technologies are researched and developed.

Through keynote and plenary lectures, invited presentations, oral and poster sessions, technical discussions, and interdisciplinary scientific exchange, the conference aims to foster meaningful dialogue across academic, research, and industrial communities and to advance collaboration in emerging areas of materials and AI-enabled engineering.

October 13–14, 2027 | Berlin, Germany

About the Conference

MatAi 2027 — International Conference on Materials Science, Engineering & Artificial Intelligence** will be held on **October 13–14, 2027, in Berlin, Germany**, bringing together an international community of researchers, scientists, engineers, academics, and industry professionals working across materials science, engineering, and artificial intelligence.

The conference is dedicated to examining emerging developments at the intersection of **advanced materials research, engineering innovation, computational science, and artificial intelligence**. It provides a multidisciplinary platform for presenting significant research findings, exchanging scientific knowledge, and discussing evolving methodologies and technologies that are shaping the future of materials development.

Particular emphasis is placed on the growing application of **artificial intelligence, machine learning, materials informatics, computational modelling, and data-driven approaches** to materials discovery, design, characterization, processing, and manufacturing. The conference also encompasses developments in advanced materials, nanomaterial's, polymers and composites, metals and alloys, ceramics, biomaterials, energy materials, smart materials, and sustainable materials engineering.

MatAi 2027 welcomes **original research, technical contributions, experimental and theoretical studies, computational investigations, and interdisciplinary perspectives** from academia, research institutions, and industry. Through keynote and plenary lectures, invited presentations, oral and poster sessions, and scientific discussions, the conference aims to facilitate meaningful exchange across disciplines and encourage international research collaboration.

By bringing together expertise from materials science, engineering, and artificial intelligence, **MatAi 2027 seeks to provide a focused international forum for advancing knowledge, exploring emerging research directions, and addressing the scientific and technological challenges associated with next-generation materials and intelligent engineering.**

Aims & Objectives

Aim*

MatAi 2027** aims to provide an international scientific platform for advancing knowledge and fostering interdisciplinary exchange at the convergence of **Materials Science, Engineering, and Artificial Intelligence**. The conference brings together researchers, academics, engineers, and industry professionals to examine emerging scientific developments, methodologies, and technologies shaping the future of materials research and engineering.

Objectives

* **Advance Scientific Knowledge**

Present and discuss recent research findings, emerging methodologies, and scientific developments across materials science, engineering, and artificial intelligence.

* **Promote Interdisciplinary Research**

Foster interaction among materials scientists, engineers, AI specialists, computational researchers, and related scientific disciplines.

* **Explore AI-Driven Materials Research**

Examine the application of artificial intelligence, machine learning, materials informatics, and computational approaches to materials discovery, design, modelling, characterization, and optimization.

*Address Emerging Materials & Engineering Challenges**

Discuss advances and challenges in advanced materials, nanomaterials, composites, energy materials, biomaterials, smart materials, sustainable materials, and advanced engineering technologies.

*Strengthen International Research Collaboration**

Encourage scientific exchange and collaborative research among universities, research institutions, laboratories, and industry organizations worldwide.

Support Emerging Researchers & Knowledge Exchange**

Provide opportunities for PhD scholars, early-career researchers, academics, and professionals to present research, exchange expertise, and engage with the wider international scientific community.

Why Attend MatAi 2027?

MatAi 2027 provides an international forum for researchers, scientists, engineers, academics, and industry professionals to exchange knowledge, present research, and engage with emerging developments at the convergence of **Materials Science, Engineering, and Artificial Intelligence**.

Present and Discuss Research

Share original research, scientific findings, technical developments, and emerging methodologies with an international community of specialists.

Explore Emerging Scientific Developments

Gain insights into advances in advanced materials, materials engineering, nanotechnology, computational materials science, materials informatics, machine learning, and AI-enabled materials research.

Connect Across Disciplines

Engage with experts from complementary fields and explore perspectives that extend beyond traditional research boundaries.

Build International Research Networks

Establish professional connections with researchers, academic institutions, laboratories, technology organizations, and industry representatives from different regions.

Discover AI-Enabled Approaches

Examine how artificial intelligence, machine learning, computational modelling, and data-driven methods are transforming materials discovery, design, characterization, processing, and manufacturing.

Engage with Industry

Explore the relationship between scientific research and real-world engineering applications through interaction with industry and R&D professionals.

Support Early-Career Researchers

PhD scholars, postdoctoral researchers, and early-career scientists can present their work, exchange knowledge, and engage with an international scientific community.

Experience Scientific Exchange in Berlin

Take part in a focused two-day international conference in **Berlin, Germany**, bringing together diverse perspectives from materials science, engineering, and artificial intelligence.

Target Audience

MatAi 2027 welcomes an international community of professionals and researchers working across **Materials Science, Engineering, Artificial Intelligence, and related disciplines**.

The conference is particularly relevant to:

1. Academic & Research Professionals

- Professors and Faculty Members
- Materials Scientists
- Materials Science & Engineering Researchers
- Research Scientists
- Computational Materials Researchers
- University and Research Institution Representatives

2. Artificial Intelligence & Computational Specialists

- Artificial Intelligence Researchers
- Machine Learning Specialists
- Data Scientists
- Materials Informatics Researchers
- Computational Modelling Specialists
- AI-Driven Research Professionals

3. Engineering & Technology Professionals

- Materials Engineers
- Mechanical and Chemical Engineers
- Manufacturing and Process Engineers
- Nanotechnology Professionals
- Advanced Manufacturing Specialists
- Technology and Innovation Professionals

4. Early-Career Researchers & Students

- PhD Scholars
- Doctoral Researchers
- Postdoctoral Researchers
- Early-Career Scientists
- Graduate and Research Students

5. Industry & R&D Community

- Industrial R&D Professionals
- Technology Developers

- Product Development Specialists
- Research and Innovation Managers
- Technical and Engineering Professionals
- Industry Representatives

Related Fields

Researchers and professionals from related disciplines are also welcome, including **Nanotechnology, Energy Materials, Biomaterials, Polymers and Composites, Sustainable Materials, Digital Engineering, Data Science, Additive Manufacturing, and Intelligent Manufacturing**.

International Scientific Community

MatAi 2027 provides a multidisciplinary setting for participants from **universities, research institutions, laboratories, technology organizations, and industry** to exchange knowledge, present research, and engage with developments across materials science, engineering, and artificial intelligence.

October 13–14, 2027 | Berlin, Germany

Conference Agenda:

DAY 1 — October 13, 2027

Materials Science, Advanced Materials & Intelligent Materials

Time	Session
09:00 – 09:30	Registration & Welcome Coffee
09:30 – 09:45	Opening Ceremony & Welcome Remarks
09:45 – 10:00	Conference Introduction & Scientific Program Overview
10:00 – 10:45	**Keynote Lecture I**
10:45 – 11:30	**Plenary Lecture I**
11:30 – 11:50	Coffee & Networking Break
11:50 – 13:00	**Session I: Advanced Materials & Materials Engineering**
13:00 – 14:00	Lunch & Networking
14:00 – 15:10	**Session II: Nanomaterials & Nanotechnology**
15:10 – 15:30	Coffee & Networking Break
15:30 – 16:30	**Session III: Polymers, Composites, Metals & Ceramics**

Time	Session
16:30 – 17:30	**Session IV: Smart, Functional & Sustainable Materials**
17:30 – 18:10	**Poster Presentation & Scientific Interaction**
18:10 – 18:30	Day 1 Summary & Closing Remarks

DAY 2 — October 14, 2027

Artificial Intelligence, Computational Materials & Emerging Technologies

Time	Session
09:00 – 09:20	Morning Registration & Networking
09:20 – 09:30	Day 2 Welcome & Program Overview
09:30 – 10:15	**Keynote Lecture II**
10:15 – 11:00	**Plenary Lecture II**
11:00 – 11:20	Coffee & Networking Break
11:20 – 12:30	**Session V: Artificial Intelligence in Materials Science**
12:30 – 13:00	**Session VI: Machine Learning & Materials Informatics**
13:00 – 14:00	Lunch & Networking
14:00 – 15:10	**Session VII: Computational Materials Science & Predictive Modelling**
15:10 – 15:30	Coffee & Networking Break
15:30 – 16:30	**Session VIII: AI-Driven Materials Discovery, Design & Characterization**
16:30 – 17:20	**Session IX: Intelligent Manufacturing & Emerging Engineering Technologies**
17:20 – 17:50	**Industry & Academic Perspectives / Panel Discussion**
17:50 – 18:15	**Poster Highlights & Young Researcher Recognition**
18:15 – 18:30	**Closing Ceremony & Conference Conclusion**

Program Format

09:00 AM – 06:30 PM
2 Full Scientific Days

Keynote Lectures
Plenary Lectures
Invited Presentations
Oral Technical Sessions
Poster Presentations
Thematic Scientific Sessions
Industry & Academic Interaction
Networking Sessions
Closing Ceremony

The detailed presentation order, speaker names, and individual presentation times will be published in the final scientific program.

Conference Highlights

MatAi 2027 brings together the global Materials Science, Engineering, and Artificial Intelligence community through a focused two-day scientific program designed for research presentation, knowledge exchange, and interdisciplinary interaction.

International Scientific Program

A focused two-day program covering current research and emerging developments across materials science, engineering, computational research, and artificial intelligence.

Keynote & Plenary Lectures

Distinguished scientific contributions addressing significant developments, emerging research directions, and broader perspectives within the conference scope.

Invited & Technical Presentations

Specialized presentations featuring current research, methodologies, technologies, and applications from academic and professional communities.

Oral & Poster Presentations

Dedicated platforms for researchers and emerging scientists to present original work and engage in scientific discussion.

Thematic Scientific Sessions

Focused sessions covering advanced materials, nanotechnology, materials engineering, sustainable materials, computational materials science, AI, machine learning, and materials informatics.

Materials Science & AI Integration

A central focus on the convergence of materials research with artificial intelligence, machine learning, computational modelling, and data-driven methodologies.

Interdisciplinary Scientific Exchange

Interaction across materials science, engineering, computational science, artificial intelligence, and related research disciplines.

Academic & Industry Interaction

Engagement between academic researchers, research institutions, technology professionals, and industry representatives to discuss research applications and emerging technological directions.

Early-Career Research Participation

Dedicated opportunities for PhD scholars, postdoctoral researchers, and early-career scientists to present their work and participate in scientific discussions.

International Networking

A global setting for researchers and professionals to establish scientific connections and exchange perspectives across institutions, disciplines, and regions.

Berlin, Germany

An international conference setting in **Berlin**, bringing together scientific and professional communities within one of Europe's major research and technology centres.

MatAi 2027 at a Glance

2 Days | Keynote & Plenary Lectures | Oral Presentations | Poster Sessions | Thematic Sessions | AI & Materials Research | Academic–Industry Exchange | International Participation

2 Scientific Committee Page

The **MatAi 2027 Scientific Committee** brings together established researchers, academics, scientists, and subject-matter experts representing the broad fields of **Materials Science, Engineering, Artificial Intelligence, and related disciplines**.

The committee provides scientific direction for the conference and supports the development of a rigorous, relevant, and interdisciplinary scientific program.

Scientific Committee

Experts contributing to the scientific direction, thematic development, and overall academic quality of MatAi 2027.

International Advisory Committee

Senior academics, researchers, and professionals providing strategic and scientific guidance from an international perspective.

Technical Committee

Subject specialists supporting the development of technical sessions, research tracks, presentations, and emerging scientific topics.

Organizing Committee

Professionals responsible for coordinating the conference program, participant experience, communications, and operational arrangements.

Committee Responsibilities

- Providing scientific and technical guidance
- Supporting the development of conference sessions and research tracks
- Advising on emerging areas within Materials Science, Engineering, and Artificial Intelligence
- Supporting the review and evaluation of submitted abstracts
- Contributing to the scientific quality and relevance of the program
- Encouraging international and interdisciplinary participation
- Supporting academic and industry engagement

Scientific Committee

Primary Role: Academic and scientific leadership.

Responsibilities:

- Advise on the overall scientific direction of the conference
- Define and refine scientific themes and research areas
- Contribute to the development of the technical program
- Support the evaluation of submitted abstracts and scientific contributions
- Identify emerging research areas relevant to the conference
- Promote scientific quality and interdisciplinary engagement

Members:
Prof. [Full Name]
[Department / Research Area]
[University / Research Institution] — [Country]

Prof. [Full Name]
[Department / Research Area]
[University / Research Institution] — [Country]

Dr. [Full Name]
[Research Area / Specialization]
[University / Research Institution] — [Country]

International Advisory Committee

Primary Role: International scientific and strategic advice.

Responsibilities:

- Provide senior-level guidance on the international direction of the conference
- Advise on emerging global research trends
- Support international academic engagement
- Recommend potential speakers and scientific contributors
- Encourage participation from institutions and researchers across different regions

Members:

Join the Scientific Community

MatAi 2027 welcomes established researchers and subject experts interested in contributing to the scientific development of the conference.

[VIEW COMMITTEE MEMBERS]

Speakers Page

Conference Speaker Overview

MatAi 2027 — International Conference on Materials Science, Engineering & Artificial Intelligence brings together an international community of researchers, scientists, engineers, academics, and industry professionals to present and discuss developments across **Materials Science, Engineering, Artificial Intelligence, and related interdisciplinary fields**.

The conference speaker program is structured to provide a balanced scientific perspective through **Keynote Lectures, Plenary Presentations, Invited Talks, Oral Presentations, and Poster Presentations**. Contributions will address established research areas as well as emerging developments in advanced materials, materials engineering, computational

materials science, artificial intelligence, machine learning, materials informatics, and AI-enabled materials research.

The program is intended to facilitate **high-level scientific exchange, interdisciplinary discussion, and knowledge sharing** among participants from universities, research institutions, laboratories, and industry.

Keynote Speakers

Distinguished Perspectives on Emerging Research

Keynote Speakers at **MatAi 2027** will present high-level perspectives on significant developments, emerging research directions, and transformative approaches across **Materials Science, Engineering, and Artificial Intelligence**.

Keynote lectures are intended to provide broad scientific perspectives, highlight important advances, and stimulate discussion on the future direction of interdisciplinary materials and AI research.

[VIEW KEYNOTE SPEAKERS]

Plenary Speakers

Plenary Speakers at **MatAi 2027** will address significant scientific and technological themes relevant to the wider conference community.

Plenary presentations will provide cross-disciplinary perspectives on advances in **materials research, engineering, computational methodologies, artificial intelligence, and emerging technologies**, with emphasis on topics of broad relevance across the conference.

Featured Speakers

Specialized Expertise & Emerging Research

Featured Speakers at **MatAi 2027** will highlight specialized areas of research, emerging technologies, and innovative applications relevant to the conference scope.

Their presentations will provide focused perspectives on developments across **advanced materials, materials engineering, nanotechnology, materials informatics, machine learning, computational materials science, AI-driven materials discovery, and intelligent manufacturing**.

Oral & Poster Presentations

Researchers, academics, PhD scholars, postdoctoral researchers, and industry professionals are invited to contribute original research through oral and poster presentations.

Contributions may include **experimental studies, theoretical investigations, computational research, engineering developments, AI-driven methodologies, and interdisciplinary research** within the conference scope.

[PRESENTATION GUIDELINES]
[SUBMIT ABSTRACT]

Scientific Areas Represented

The speaker program may cover research across:

- Advanced Materials & Materials Engineering
- Nanomaterials & Nanotechnology
- Polymers & Composite Materials
- Metals, Alloys & Ceramics
- Smart & Functional Materials
- Energy & Sustainable Materials
- Biomaterials & Biomedical Materials
- Computational Materials Science
- Materials Informatics
- Artificial Intelligence in Materials Science
- Machine Learning & Predictive Modelling
- AI-Driven Materials Discovery & Design
- AI-Assisted Materials Characterization
- Intelligent & Advanced Manufacturing

Speaker Participation

MatAi 2027 welcomes qualified researchers, scientists, engineers, academics, and industry professionals interested in contributing to the scientific program.

All proposed presentations are subject to the applicable **abstract submission, review, acceptance, and program scheduling procedures**.

[SUBMIT ABSTRACT] **[SPEAKER GUIDELINES]**

MatAi 2027

International Conference on Materials Science, Engineering & Artificial Intelligence

October 13–14, 2027 | Berlin, Germany

Abstract Submission page

Call for Abstracts

MatAi 2027 — International Conference on Materials Science, Engineering & Artificial Intelligence invites researchers, scientists, engineers, academics, PhD scholars, postdoctoral researchers, and industry professionals to submit abstracts presenting original research and technical contributions relevant to the conference scope.

The conference welcomes **experimental, theoretical, computational, methodological, and applied research** addressing current developments across Materials Science, Engineering, Artificial Intelligence, and related interdisciplinary fields.

Abstracts should clearly communicate the **research focus, objectives, methodology or approach, principal findings, and significance** of the work where applicable.

Conference Focus

Submissions are welcomed across areas including:

- Advanced Materials & Materials Engineering
- Nanomaterials & Nanotechnology
- Polymers & Composite Materials
- Metals, Alloys & Ceramics
- Smart & Functional Materials
- Energy & Sustainable Materials
- Biomaterials & Biomedical Materials
- Computational Materials Science
- Materials Informatics
- Artificial Intelligence in Materials Science
- Machine Learning & Predictive Modelling
- AI-Driven Materials Discovery & Design
- AI-Assisted Materials Characterization
- Intelligent & Advanced Manufacturing

[VIEW ALL SCIENTIFIC SESSIONS]

Presentation Categories

Authors may submit their work for consideration in one of the following formats:

Oral Presentation

A technical presentation of original research followed by discussion and questions.

Poster Presentation

A visual presentation designed to communicate research findings and facilitate focused scientific discussion.

Invited Presentation

Specialized contributions presented by researchers invited to participate in selected scientific sessions.

Keynote & Plenary Contributions

Extended presentations addressing significant developments and broader research perspectives within the conference scope.

Abstract Preparation Guidelines

Authors should prepare abstracts that are:

- Clear, concise, and scientifically structured
- Relevant to the scope of MatAi 2027
- Based on original research or a substantive technical contribution
- Written in professional academic English
- Supported by appropriate scientific information
- Free from plagiarism and unauthorized third-party material

Recommended Abstract Structure

Title
Concise and representative of the research.

Authors & Affiliations
Full names, institutional affiliations, and corresponding author details.

Background / Context
Brief description of the research problem or scientific context.

Objectives
Clear statement of the purpose or research question.

Methodology / Approach
Summary of the methods, computational approaches, experiments, or techniques used.

Results / Findings
Principal findings or expected outcomes, where applicable.

Conclusion / Significance
Key conclusions and relevance of the research.

Keywords
Relevant scientific keywords identifying the main subject areas.

Abstract Submission Requirements

Please ensure that your submission includes:

- Abstract title

- Full author names
- Institutional affiliations
- Corresponding author details
- Abstract text
- Relevant keywords
- Preferred presentation category
- Selected scientific session or research area

Specific word limits, formatting requirements, and submission fields will be provided through the official submission system.

[DOWNLOAD ABSTRACT TEMPLATE]

Submission & Review Process

Step 1 — Prepare Your Abstract

Prepare your contribution according to the MatAi 2027 abstract guidelines.

Step 2 — Submit

Submit the abstract through the designated online submission system.

Step 3 — Scientific Review

Submitted abstracts will be evaluated for relevance, scientific content, clarity, and alignment with the conference scope.

Step 4 — Decision

Authors will receive notification regarding the outcome of the abstract review.

Step 5 — Registration & Program Inclusion

Accepted presenters should complete the applicable registration requirements within the specified timeframe to confirm participation and program inclusion.

Important Dates

Abstract Submission Opens: To Be Announced

Abstract Submission Deadline: To Be Announced

Notification of Acceptance: To Be Announced

Early Registration Deadline: To Be Announced

Conference Dates: October 13–14, 2027

[VIEW IMPORTANT DATES]

Before You Submit

Please ensure that:

☐ Your abstract is relevant to the conference scope
☐ The title accurately represents your research
☐ All authors and affiliations are correctly listed
☐ The abstract follows the submission guidelines
☐ The presentation category is selected
☐ Your contact information is accurate
☐ The work complies with applicable research integrity requirements

---

Presentation Categories & Eligibility

Authors may indicate their preferred presentation format when submitting an abstract. The final presentation category may be determined by the conference scientific program and review process.

Oral Presentation

Suitable for: Researchers, scientists, academics, engineers, PhD scholars, postdoctoral researchers, and industry professionals presenting original research or substantial technical work.

Oral presentations are intended for contributions with clear research objectives, methodology, findings, and scientific or technical significance.

Poster Presentation

Suitable for: Researchers, PhD scholars, students, early-career researchers, and professionals presenting original research, preliminary findings, case studies, or focused technical studies.

Poster presentations provide an opportunity for detailed scientific discussion in a dedicated presentation setting.

Invited Presentation

Suitable for: Researchers, academics, scientists, engineers, and industry experts specifically invited by the conference scientific or organizing committee.

Invited presentations address selected scientific or technical topics aligned with the conference program.

Plenary Presentation

Suitable for: Established researchers and recognized experts invited to provide broad perspectives on significant scientific or technological themes relevant to the conference.

Plenary presentations are scheduled as part of the main scientific program.

Keynote Presentation

Suitable for: Distinguished researchers, senior academics, scientific leaders, or recognized experts invited to deliver an extended presentation addressing major developments, emerging directions, or broader challenges within the conference scope.

Keynote presentations are reserved for specially selected contributors.

At a Glance

Presentation Category	Eligibility
Keynote	Distinguished experts by invitation
Plenary	Established experts by invitation
Invited	Selected experts by invitation
Oral	Authors with accepted research contributions
Poster	Authors with accepted research contributions

Note: Submission of an abstract does not guarantee a specific presentation category. The final format is subject to scientific review, program requirements, and availability.

Submit Your Abstract

Share your research with an international scientific community at **MatAi 2027** and contribute to discussions at the intersection of **Materials Science, Engineering, and Artificial Intelligence**.

Submit your research. Present your findings. Contribute to the scientific program.

[SUBMIT ABSTRACT]

MatAi 2027
International Conference on Materials Science, Engineering & Artificial Intelligence
October 13–14, 2027 | Berlin, Germany

MatAi 2027

30 Scientific Sessions & Sub-Topics

International Conference on Materials Science, Engineering & Artificial Intelligence
October 13–14, 2027 | Berlin, Germany

SESSION 01 — Advanced Materials & Materials Engineering

- Advanced Structural Materials
- High-Performance Materials
- Materials Design and Engineering
- Structure–Property Relationships
- Materials Synthesis and Processing
- Surface and Interface Engineering
- Materials Performance and Reliability

SESSION 02 — Nanomaterial's & Nanotechnology

- Nanomaterials Synthesis
- Nanostructured Materials
- Nanocomposites
- 2D Materials
- Carbon Nanomaterials
- Nanoelectronics
- AI-Assisted Nanomaterial Design

SESSION 03 — Polymers & Advanced Polymer Materials

- Functional Polymers
- Polymer Blends
- Polymer Nanocomposites
- High-Performance Polymers
- Smart Polymers
- Sustainable Polymers
- Polymer Processing

SESSION 04 — Composite Materials & Hybrid Structures

- Fiber-Reinforced Composites
- Polymer Matrix Composites
- Metal Matrix Composites
- Ceramic Matrix Composites
- Hybrid Composites
- Lightweight Structures
- Composite Manufacturing

SESSION 05 — Metals, Alloys & Metallurgical Engineering

- Advanced Alloys
- High-Entropy Alloys
- Lightweight Alloys
- Alloy Design
- Microstructure Engineering
- Metallic Materials Processing
- Materials Performance

SESSION 06 — Advanced Ceramics & Functional Ceramics

- Structural Ceramics
- Functional Ceramics
- Ceramic Composites
- Electroceramics
- Bioceramics
- Ceramic Processing
- Ceramic Characterization

SESSION 07 — Smart & Multifunctional Materials

- Smart Materials
- Multifunctional Materials
- Stimuli-Responsive Materials
- Shape-Memory Materials
- Self-Healing Materials
- Adaptive Materials
- Functional Surfaces

SESSION 08 — Sustainable Materials & Green Engineering

- Sustainable Materials
- Green Materials Processing
- Circular Materials Economy
- Recyclable Materials
- Bio-Based Materials
- Low-Carbon Materials
- Sustainable Materials Manufacturing

SESSION 09 — Energy Storage Materials

- Battery Materials
- Lithium-Ion Batteries
- Sodium-Ion Batteries
- Solid-State Batteries
- Supercapacitor Materials
- Electrode Materials
- AI for Energy Materials

SESSION 10 — Energy Conversion & Renewable Energy Materials

- Photovoltaic Materials
- Fuel Cell Materials
- Hydrogen Materials
- Thermoelectric Materials
- Catalytic Materials
- Energy Conversion Materials
- AI-Driven Energy Materials Discovery

SESSION 11 — Biomaterials & Biomedical Materials

- Biocompatible Materials
- Bioactive Materials
- Tissue Engineering
- Implant Materials
- Drug Delivery Materials
- Nanobiomaterials
- AI in Biomedical Materials

SESSION 12 — Electronic, Semiconductor & Photonic Materials

- Semiconductor Materials
- Electronic Materials
- Dielectric Materials
- Photonic Materials
- Optoelectronic Materials
- Magnetic Materials
- Functional Electronic Materials

SESSION 13 — Quantum Materials & Emerging Functional Materials

- Quantum Materials
- Topological Materials
- Superconducting Materials
- Spintronic Materials
- Magnetic Materials
- Quantum Devices
- Computational Quantum Materials

SESSION 14 — Artificial Intelligence in Materials Science

- AI for Materials Research
- Machine Learning
- Deep Learning
- Generative AI
- AI-Based Materials Modelling
- AI-Assisted Experimentation
- Explainable AI

SESSION 15 — Machine Learning & Materials Informatics

- Materials Informatics
- Materials Databases
- Materials Data Science
- Machine Learning Algorithms
- Structure–Property Prediction
- Feature Engineering
- High-Throughput Materials Screening

SESSION 16 — AI-Driven Materials Discovery & Design

- AI-Driven Materials Discovery
- Inverse Materials Design
- Generative Materials Design
- Property Prediction
- Materials Optimization
- Machine Learning-Guided Synthesis
- Autonomous Materials Discovery

SESSION 17 — Computational Materials Science

- Density Functional Theory
- Molecular Dynamics
- Monte Carlo Methods
- Phase-Field Modelling
- Atomistic Modelling
- Computational Thermodynamics
- Simulation-Driven Materials Design

SESSION 18 — Multiscale Modelling & Predictive Materials Engineering

- Multiscale Materials Modelling
- Computational Mechanics
- Predictive Modelling
- Process–Structure–Property Relationships
- Finite Element Modelling
- Materials Behaviour Prediction
- AI-Enhanced Multiscale Simulation

SESSION 19 — AI-Assisted Materials Characterization

- AI-Based Microscopy
- Computer Vision
- Automated Image Analysis
- Microstructure Recognition
- Spectroscopy Data Analysis
- Automated Characterization
- Machine Learning for Materials Characterization

SESSION 20 — Advanced Materials Characterization & Analytical Techniques

- Electron Microscopy
- Scanning Electron Microscopy
- Transmission Electron Microscopy
- X-Ray Diffraction
- Atomic Force Microscopy
- Spectroscopy
- In-Situ and Operando Characterization

SESSION 21 — Additive Manufacturing & 3D-Printed Materials

- Metal Additive Manufacturing
- Polymer 3D Printing
- Ceramic Additive Manufacturing
- Powder Bed Fusion
- Directed Energy Deposition
- 3D-Printed Functional Materials
- AI for Additive Manufacturing

SESSION 22 — Intelligent Manufacturing & Smart Processing

- AI in Manufacturing
- Intelligent Materials Processing
- Process Optimization
- Smart Manufacturing
- Autonomous Manufacturing
- Robotics and Automation
- AI-Based Quality Control

SESSION 23 — Digital Twins & Digital Materials Engineering

- Digital Twins
- Digital Materials Design
- Digital Engineering
- Virtual Materials Testing
- Process Simulation
- Real-Time Materials Monitoring

- AI-Enabled Digital Twins

SESSION 24 — Materials Processing & Manufacturing Technologies

- Advanced Materials Processing
- Casting and Forming
- Welding and Joining
- Heat Treatment
- Surface Engineering
- Powder Processing
- Process–Microstructure Relationships

SESSION 25 — Surface Engineering, Coatings & Interfaces

- Functional Coatings
- Protective Coatings
- Thin Films
- Surface Modification
- Interface Engineering
- Corrosion-Resistant Materials
- AI for Surface Characterization

SESSION 26 — Materials for Environmental & Climate Technologies

- Environmental Materials
- Carbon Capture Materials
- Water Purification Materials
- Photocatalytic Materials
- Waste-Derived Materials
- Climate-Resilient Materials
- AI for Environmental Materials

SESSION 27 — Materials for Aerospace, Automotive & Advanced Engineering

- Aerospace Materials
- Lightweight Automotive Materials
- High-Temperature Materials
- Structural Composites
- Materials for Electric Vehicles
- Advanced Transportation Materials
- AI-Assisted Engineering Materials Design

SESSION 28 — Reliability, Degradation, Failure & Materials Performance

- Materials Failure Analysis
- Fatigue and Fracture
- Corrosion
- Wear and Tribology

- Degradation Mechanisms
- Reliability Engineering
- Predictive Materials Performance

SESSION 29 — Autonomous Laboratories & AI-Enabled Experimental Research

- Self-Driving Laboratories
- Autonomous Materials Synthesis
- Robotic Experimentation
- Closed-Loop Materials Research
- AI-Guided Experimental Design
- Automated Materials Screening
- Human–AI Collaboration in Research

SESSION 30 — Future Directions in Materials Science, Engineering & AI

- Emerging Materials Technologies
- Next-Generation Materials
- AI–Materials Convergence
- Generative AI in Engineering
- Autonomous Materials Research
- Intelligent Materials Systems
- Future Manufacturing Technologies
- Materials Innovation and Sustainability

CROSS-DISCIPLINARY RESEARCH THEMES

The 30 sessions are connected through four major scientific pillars:

MATERIALS SCIENCE

Advanced Materials • Nanomaterials • Polymers • Composites • Metals • Alloys • Ceramics • Biomaterials • Energy Materials • Smart Materials

ARTIFICIAL INTELLIGENCE

Artificial Intelligence • Machine Learning • Deep Learning • Generative AI • Materials Informatics • Computer Vision • Physics-Informed AI • Autonomous Research

ENGINEERING

Materials Engineering • Advanced Manufacturing • Additive Manufacturing • Digital Engineering • Intelligent Manufacturing • Surface Engineering • Reliability Engineering

COMPUTATIONAL SCIENCE

Computational Materials Science • Multiscale Modelling • Molecular Dynamics • Density Functional Theory • Predictive Modelling • Digital Twins • Simulation-Driven Design

---

PRESENTATION CATEGORIES

All 30 scientific sessions may accommodate:

Keynote Lectures
Plenary Lectures
Invited Presentations
Oral Presentations
Poster Presentations
Industry Presentations
Young Researcher Presentations

Conference Focus

MatAi 2027 welcomes experimental, theoretical, computational, data-driven, AI-enabled, and interdisciplinary research addressing the development, understanding, processing, characterization, optimization, and application of advanced materials and intelligent engineering systems.

Add this page abstract submission sub Sessions page

Main Scientific Sessions & Research Topics

International Conference on Materials Science, Engineering & Artificial Intelligence
October 13–14, 2027 | Berlin, Germany

SESSION 01 — Advanced Materials & Materials Engineering

Session Overview
This session focuses on the development, design, processing, characterization, and engineering applications of advanced materials with enhanced mechanical, thermal, electrical, optical, and functional properties. Contributions addressing innovative materials systems and emerging engineering applications are encouraged.

Key Topics

- Advanced Structural Materials
- High-Performance Materials
- Materials Design and Engineering

- Structure–Property Relationships
- Materials Synthesis and Processing
- Surface and Interface Engineering
- Materials Optimization
- High-Temperature Materials
- Lightweight Engineering Materials
- Materials Performance and Reliability

SESSION 02 — Nanomaterials & Nanotechnology

Session Overview
This session addresses research in nanoscale materials, structures, and technologies, covering synthesis, processing, characterization, modelling, and applications. Particular interest is given to advanced nanomaterials and AI-assisted approaches for nanoscale materials discovery and design.

Key Topics

- Nanomaterials Synthesis
- Nanostructured Materials
- Nanocomposites
- Two-Dimensional Materials
- Carbon Nanomaterials
- Quantum Nanostructures
- Nanoelectronics
- Nanophotonics
- Nanoscale Characterization
- AI-Assisted Nanomaterial Design

SESSION 03 — Polymers & Advanced Polymer Materials

Session Overview
This session explores emerging polymeric materials and engineering strategies for improving performance, functionality, processability, and sustainability. Research covering advanced polymer architectures, functional systems, composites, and data-driven polymer design is welcomed.

Key Topics

- Functional Polymers
- High-Performance Polymers
- Polymer Blends
- Polymer Nanocomposites
- Smart Polymers
- Sustainable Polymers

- Bio-Based Polymers
- Polymer Processing
- Polymer Characterization
- Computational Polymer Science

SESSION 04 — Composite Materials & Hybrid Structures

Session Overview
This session focuses on advanced composite and hybrid materials designed to achieve improved strength, stiffness, durability, lightweight performance, and multifunctionality. Contributions may address material design, manufacturing, characterization, modelling, and engineering applications.

Key Topics

- Fiber-Reinforced Composites
- Polymer Matrix Composites
- Metal Matrix Composites
- Ceramic Matrix Composites
- Hybrid Composites
- Nanocomposites
- Lightweight Composite Structures
- Composite Manufacturing
- Damage and Failure Analysis
- AI-Assisted Composite Design

SESSION 05 — Metals, Alloys & Metallurgical Engineering

Session Overview
This session covers advances in metallic materials, alloy development, microstructure engineering, processing technologies, and performance optimization. Emphasis is placed on emerging alloys and computational or AI-enabled approaches to metallic materials design.

Key Topics

- Advanced Metallic Materials
- High-Entropy Alloys
- Lightweight Alloys
- Alloy Design
- Microstructure Engineering
- Metal Processing
- Heat Treatment

- Additive Manufacturing of Metals
- Mechanical Performance
- AI-Assisted Alloy Design

SESSION 06 — Advanced Ceramics & Functional Ceramics

Session Overview
This session examines advanced ceramic materials with structural, electrical, thermal, optical, magnetic, and biomedical functionality. Research covering processing, microstructure, characterization, modelling, and technological applications is included.

Key Topics

- Structural Ceramics
- Functional Ceramics
- Ceramic Composites
- Electroceramics
- Bioceramics
- Dielectric Materials
- Ceramic Processing
- Ceramic Coatings
- High-Temperature Ceramics
- Computational Ceramic Materials

SESSION 07 — Smart & Multifunctional Materials

Session Overview
This session explores materials capable of responding to external stimuli or performing multiple functions within advanced engineering systems. Research on adaptive, responsive, self-healing, and intelligent material systems is particularly relevant.

Key Topics

- Smart Materials
- Multifunctional Materials
- Stimuli-Responsive Materials
- Shape-Memory Materials
- Self-Healing Materials
- Adaptive Materials
- Functional Surfaces
- Responsive Polymers
- Intelligent Material Systems
- Smart Structures

SESSION 08 — Sustainable Materials & Green Engineering

Session Overview
This session addresses materials research supporting resource efficiency, circularity, reduced environmental impact, and sustainable engineering. Contributions may focus on sustainable material development, processing, recycling, and life-cycle assessment.

Key Topics

- Sustainable Materials
- Green Materials Processing
- Circular Materials Economy
- Recyclable Materials
- Bio-Based Materials
- Low-Carbon Materials
- Sustainable Manufacturing
- Materials Recycling
- Life-Cycle Assessment
- AI for Sustainable Materials Design

SESSION 09 — Energy Storage Materials

Session Overview
This session focuses on materials and technologies for efficient energy storage, including emerging battery chemistries and electrochemical storage systems. Both experimental and computational approaches to improving energy density, stability, safety, and lifetime are welcomed.

Key Topics

- Lithium-Ion Battery Materials
- Sodium-Ion Batteries
- Solid-State Batteries
- Battery Electrodes
- Electrolyte Materials
- Supercapacitor Materials
- Energy Storage Interfaces
- Battery Degradation
- Computational Battery Materials
- AI for Energy Materials Discovery

SESSION 10 — Energy Conversion & Renewable Energy Materials

Session Overview
This session examines materials enabling efficient energy conversion and renewable energy technologies. Research on photovoltaic, hydrogen, fuel-cell, catalytic, thermoelectric, and related functional materials is included.

Key Topics

- Photovoltaic Materials
- Solar Cell Materials
- Fuel Cell Materials
- Hydrogen Materials
- Hydrogen Storage
- Thermoelectric Materials
- Catalytic Materials
- Energy Conversion Materials
- Photocatalytic Materials
- AI-Driven Energy Materials Discovery

SESSION 11 — Biomaterials & Biomedical Materials

Session Overview
This session covers materials designed for biomedical, healthcare, and biological applications, with emphasis on biocompatibility, functionality, therapeutic performance, and advanced fabrication. Contributions combining biomaterials research with computational and AI methods are encouraged.

Key Topics

- Biomaterials
- Biomedical Materials
- Biocompatible Materials
- Bioactive Materials
- Tissue Engineering
- Implant Materials
- Drug Delivery Materials
- Nanobiomaterials
- Biofabrication
- AI in Biomedical Materials

SESSION 12 — Electronic, Semiconductor & Photonic Materials

Session Overview
This session focuses on materials enabling next-generation electronic, semiconductor, optical, and photonic technologies. Research addressing materials design, processing, characterization, and device-related performance is welcomed.

Key Topics

- Semiconductor Materials
- Electronic Materials
- Dielectric Materials
- Photonic Materials
- Optoelectronic Materials
- Magnetic Materials
- Thin-Film Materials
- Electronic Interfaces
- Functional Electronic Materials
- AI for Electronic Materials

SESSION 13 — Quantum Materials & Emerging Functional Materials

Session Overview
This session explores emerging materials with unusual electronic, magnetic, optical, and quantum properties. Research on quantum phenomena, advanced functional materials, computational approaches, and potential technological applications is encouraged.

Key Topics

- Quantum Materials
- Topological Materials
- Superconducting Materials
- Spintronic Materials
- Magnetic Materials
- Quantum Nanostructures
- Correlated Materials
- Quantum Devices
- Computational Quantum Materials
- AI-Assisted Quantum Materials Design

SESSION 14 — Artificial Intelligence in Materials Science

Session Overview
This session examines how artificial intelligence is transforming materials research through data-driven modelling, prediction, experimentation, and optimization. Contributions demonstrating practical applications of AI across the materials research workflow are particularly relevant.

Key Topics

- Artificial Intelligence for Materials Science
- Machine Learning
- Deep Learning
- Generative AI
- AI-Based Materials Modelling
- Materials Property Prediction
- AI-Assisted Experimentation
- Automated Materials Research
- Explainable AI
- AI-Based Materials Optimization

SESSION 15 — Machine Learning & Materials Informatics

Session Overview
This session focuses on the integration of materials science, data science, and machine learning to extract knowledge from complex materials datasets and accelerate materials development.

Key Topics

- Materials Informatics
- Materials Databases
- Materials Data Science
- Machine Learning Algorithms
- Structure–Property Prediction
- Property–Performance Prediction
- Feature Engineering
- Graph Neural Networks
- Physics-Informed Machine Learning
- High-Throughput Materials Screening

SESSION 16 — AI-Driven Materials Discovery & Design

Session Overview
This session focuses on AI-enabled strategies for discovering, designing, and optimizing

materials with targeted properties. Research combining computational prediction, generative approaches, and experimental validation is particularly relevant.

Key Topics

- AI-Driven Materials Discovery
- Inverse Materials Design
- Generative Materials Design
- Materials Property Prediction
- Materials Optimization
- Machine Learning-Guided Synthesis
- AI-Based Screening
- Autonomous Materials Discovery
- Closed-Loop Materials Design
- Experimental Validation

SESSION 17 — Computational Materials Science

Session Overview
This session covers computational approaches used to understand materials structure, properties, behaviour, and performance across different length and time scales.

Key Topics

- Density Functional Theory
- Molecular Dynamics
- Monte Carlo Methods
- Phase-Field Modelling
- Atomistic Modelling
- Computational Thermodynamics
- Electronic Structure Calculations
- Computational Materials Design
- Simulation-Based Materials Research
- AI-Enhanced Computational Modelling

SESSION 18 — Multiscale Modelling & Predictive Materials Engineering

Session Overview
This session addresses predictive modelling approaches that connect atomic, microstructural, component, and system-level behaviour. Contributions integrating simulation, experimental data, and machine learning are encouraged.

Key Topics

- Multiscale Materials Modelling
- Computational Mechanics
- Predictive Modelling
- Finite Element Analysis
- Process–Structure–Property Relationships
- Materials Behaviour Prediction
- Microstructure Modelling
- Mechanical Modelling
- Uncertainty Quantification
- AI-Enhanced Multiscale Simulation

SESSION 19 — AI-Assisted Materials Characterization

Session Overview
This session explores the use of AI, computer vision, and machine learning to automate and enhance materials characterization and interpretation of experimental data.

Key Topics

- AI-Based Microscopy
- Computer Vision
- Automated Image Analysis
- Microstructure Recognition
- Spectroscopy Data Analysis
- Automated Characterization
- Defect Detection
- Materials Image Segmentation
- Machine Learning for Microscopy
- AI-Based Materials Analysis

SESSION 20 — Advanced Materials Characterization & Analytical Techniques

Session Overview
This session focuses on advanced experimental methods for investigating material structure, composition, interfaces, defects, and properties from nanoscale to macroscopic dimensions.

Key Topics

- Electron Microscopy
- Scanning Electron Microscopy
- Transmission Electron Microscopy
- X-Ray Diffraction
- Atomic Force Microscopy

- Spectroscopy
- Surface Characterization
- Microstructural Analysis
- In-Situ Characterization
- Operando Materials Characterization

SESSION 21 — Additive Manufacturing & 3D-Printed Materials

Session Overview
This session examines additive manufacturing technologies and their role in producing complex, customized, and high-performance materials and components. Research combining advanced materials with AI-based process optimization is encouraged.

Key Topics

- Metal Additive Manufacturing
- Polymer 3D Printing
- Ceramic Additive Manufacturing
- Powder Bed Fusion
- Directed Energy Deposition
- Material Extrusion
- Process Monitoring
- Additive Manufacturing Defects
- AI-Based Process Optimization
- 3D-Printed Functional Materials

SESSION 22 — Intelligent Manufacturing & Smart Processing

Session Overview
This session explores the integration of AI, automation, sensing, and data analytics into materials processing and manufacturing systems to improve productivity, quality, efficiency, and adaptability.

Key Topics

- AI in Manufacturing
- Intelligent Materials Processing
- Smart Manufacturing
- Process Optimization
- Autonomous Manufacturing
- Robotics and Automation
- Process Monitoring

- Predictive Maintenance
- AI-Based Quality Control
- Human–Machine Collaboration

SESSION 23 — Digital Twins & Digital Materials Engineering

Session Overview
This session focuses on digital representations of materials, processes, and engineering systems that enable simulation, monitoring, prediction, and optimization throughout the materials lifecycle.

Key Topics

- Digital Twins
- Digital Materials Design
- Digital Engineering
- Virtual Materials Testing
- Process Simulation
- Real-Time Materials Monitoring
- Predictive Digital Models
- Data Integration
- AI-Enabled Digital Twins
- Digital Lifecycle Management

SESSION 24 — Materials Processing & Manufacturing Technologies

Session Overview
This session addresses advanced processing and manufacturing methods used to control material structure, properties, quality, and performance. Both conventional and emerging processing technologies are considered.

Key Topics

- Advanced Materials Processing
- Casting and Forming
- Welding and Joining
- Heat Treatment
- Powder Processing
- Surface Treatment
- Materials Processing Simulation
- Microstructure Control
- Process–Property Relationships

- Advanced Manufacturing Technologies

SESSION 25 — Surface Engineering, Coatings & Interfaces

Session Overview
This session focuses on engineered surfaces, coatings, thin films, and interfaces designed to improve materials performance, durability, corrosion resistance, wear resistance, and functionality.

Key Topics

- Functional Coatings
- Protective Coatings
- Thin Films
- Surface Modification
- Interface Engineering
- Corrosion-Resistant Materials
- Wear-Resistant Coatings
- Surface Characterization
- Advanced Deposition Technologies
- AI for Surface Engineering

SESSION 26 — Materials for Environmental & Climate Technologies

Session Overview
This session explores materials designed to address environmental challenges and support climate-related technologies. Research spanning environmental remediation, resource recovery, carbon management, and sustainable materials is included.

Key Topics

- Environmental Materials
- Carbon Capture Materials
- Water Purification Materials
- Photocatalytic Materials
- Waste-Derived Materials
- Climate-Resilient Materials
- Environmental Catalysts
- Resource Recovery
- Sustainable Environmental Technologies
- AI for Environmental Materials

SESSION 27 — Materials for Aerospace, Automotive & Advanced Engineering

Session Overview
This session addresses advanced materials developed for demanding engineering environments, including aerospace, automotive, transportation, and next-generation mobility applications.

Key Topics

- Aerospace Materials
- Lightweight Automotive Materials
- High-Temperature Materials
- Structural Composites
- Materials for Electric Vehicles
- Battery Materials for Mobility
- Advanced Transportation Materials
- High-Performance Alloys
- Materials for Extreme Environments
- AI-Assisted Engineering Materials Design

SESSION 28 — Reliability, Degradation, Failure & Materials Performance

Session Overview
This session examines mechanisms governing materials degradation, damage, failure, durability, and long-term performance. Predictive and data-driven approaches to reliability assessment are also encouraged.

Key Topics

- Materials Failure Analysis
- Fatigue and Fracture
- Corrosion
- Wear and Tribology
- Degradation Mechanisms
- Damage Mechanics
- Reliability Engineering
- Lifetime Prediction
- Predictive Materials Performance
- AI for Failure Prediction

SESSION 29 — Autonomous Laboratories & AI-Enabled Experimental Research

Session Overview
This emerging session focuses on the integration of AI, robotics, automation, and experimental science to create accelerated and increasingly autonomous materials research workflows.

Key Topics

- Self-Driving Laboratories
- Autonomous Materials Synthesis
- Robotic Experimentation
- Closed-Loop Materials Research
- AI-Guided Experimental Design
- Automated Materials Screening
- Robotic Materials Processing
- Autonomous Characterization
- Human–AI Research Collaboration
- AI-Enabled Scientific Discovery

SESSION 30 — Future Directions in Materials Science, Engineering & AI

Session Overview
This forward-looking session brings together emerging concepts at the convergence of materials science, engineering, computation, and artificial intelligence. It provides a platform for discussing transformative research directions and technologies shaping the next generation of materials innovation.

Key Topics

- Next-Generation Materials
- AI–Materials Convergence
- Generative AI in Materials Science
- Autonomous Materials Research
- Intelligent Materials Systems
- Emerging Materials Technologies
- Future Manufacturing Technologies
- Digital Materials Innovation
- Sustainable Materials Development
- Future Research Directions

CROSS-CUTTING RESEARCH AREAS

The scientific programme of **MatAi 2027** spans four interconnected research pillars:

MATERIALS SCIENCE

Advanced Materials • Nanomaterials • Polymers • Composites • Metals • Alloys • Ceramics • Biomaterials • Energy Materials • Smart Materials

ARTIFICIAL INTELLIGENCE

Machine Learning • Deep Learning • Generative AI • Materials Informatics • Computer Vision • Physics-Informed AI • Autonomous Research

ENGINEERING

Materials Engineering • Advanced Manufacturing • Additive Manufacturing • Digital Engineering • Intelligent Manufacturing • Surface Engineering • Reliability Engineering

COMPUTATIONAL SCIENCE

Computational Materials Science • Multiscale Modelling • Molecular Dynamics • Density Functional Theory • Predictive Modelling • Digital Twins • Simulation-Driven Design

---

CONTRIBUTION TYPES

MatAi 2027 welcomes:

Experimental Research
Theoretical Research
Computational Studies
Data-Driven Research
AI & Machine Learning Applications
Engineering Developments
Industrial Research
Interdisciplinary Studies

Presentation Formats

Keynote Lectures | Plenary Lectures | Invited Presentations | Oral Presentations | Poster Presentations | Industry Presentations | Young Researcher Presentations

VENUE

Venue Page

Berlin, Germany

October 13–14, 2027

International Conference on Materials Science, Engineering & Artificial Intelligence

[HERO IMAGE: High-quality professional Berlin conference venue / modern conference hall]

The **International Conference on Materials Science, Engineering & Artificial Intelligence (MatAi 2027)** will be held in **Berlin, Germany**, bringing together researchers, scientists, engineers, academics, technology professionals, and industry representatives for two days of scientific presentations, technical exchange, and interdisciplinary discussion.

The conference venue will provide a professional environment for **keynote and plenary lectures, invited presentations, oral communications, poster sessions, technical discussions, networking activities, and industry–academic interaction**.

Conference Venue

[IMAGE: Exterior of the Confirmed Conference Venue]

Venue Information

Conference: MatAi 2027
Venue: [Confirmed Venue Name]
Address: [Full Venue Address]
City: Berlin
Country: Germany
Dates: October 13–14, 2027
Conference Hours: 09:00 AM – 06:30 PM

The final venue name, address, room allocation, and access information will be published on this page once confirmed.

Venue Facilities

[IMAGE: Modern Conference Auditorium]

The conference venue will be selected to support the scientific and technical requirements of an international research conference.

Main Conference Auditorium

[IMAGE: Large Conference Auditorium / Stage]

A dedicated auditorium for:

- Opening Ceremony
- Keynote Lectures
- Plenary Lectures
- Special Lectures
- Panel Discussions
- Closing Ceremony

The main auditorium will be equipped to support professional scientific presentations and audience interaction.

Technical Presentation Rooms

[IMAGE: Professional Meeting / Presentation Room]

Dedicated rooms will accommodate parallel technical sessions, invited presentations, and oral research communications.

Facilities may include:

- Presentation screen
- Projection system
- Audio system
- Microphones
- Speaker presentation equipment
- Wi-Fi connectivity
- Technical assistance

Poster Presentation Area

[IMAGE: Professional Scientific Poster Exhibition]

The poster area will provide dedicated space for researchers and early-career scientists to present their work and engage directly with participants.

Poster topics may cover:

- Advanced Materials
- Nanomaterials
- Polymers & Composites
- Metals & Alloys
- Ceramics
- Energy Materials
- Biomaterials
- Smart Materials
- Materials Informatics
- Artificial Intelligence
- Computational Materials Science
- Sustainable Materials

The poster area will also support informal scientific discussion and researcher networking.

Registration & Information Desk

[IMAGE: Professional Conference Registration Desk]

A dedicated registration and information desk will assist participants throughout the conference.

Services may include:

- Participant registration
- Badge collection
- Conference programme information
- Venue directions
- Speaker assistance
- Session information
- General conference enquiries
- Certificate information

The registration desk will be available during designated conference hours.

Speaker Preparation Area

[IMAGE: Speaker Ready Room / Presentation Preparation Area]

A dedicated speaker preparation area may be available for invited and oral presenters to:

- Review presentations
- Test presentation files
- Coordinate with technical staff
- Confirm session arrangements

- Prepare for scheduled presentations

Speakers are encouraged to submit or check their presentation materials according to the instructions provided by the Conference Secretariat.

Networking & Discussion Areas

[IMAGE: Modern Conference Networking Lounge]

The venue will provide suitable areas for informal interaction among participants.

Networking spaces will support:

- Research discussions
- Academic networking
- Industry interaction
- Collaborative discussions
- Speaker–participant interaction
- Professional connections

Exhibition & Sponsor Area

[IMAGE: Scientific / Technology Exhibition Booths]

An exhibition area may be arranged for participating organizations, research institutions, technology companies, publishers, and service providers.

Exhibitors may showcase:

- Materials technologies
- Research equipment
- Characterization systems
- Computational tools
- AI and machine-learning technologies
- Scientific software
- Laboratory solutions
- Advanced manufacturing technologies
- Research services
- Publications and educational resources

Detailed exhibition information will be provided through the **Sponsors & Exhibition** section.

Catering & Refreshments

[IMAGE: Professional Conference Coffee Break / Catering Area]

Refreshment arrangements will be provided during scheduled breaks.

The programme includes designated periods for:

- Welcome Coffee
- Morning Coffee Break
- Lunch
- Afternoon Coffee Break
- Networking Refreshments

Catering arrangements will be communicated to registered participants before the conference.

Accessibility

[IMAGE: Accessible Conference Venue Entrance]

MatAi 2027 aims to provide an accessible and inclusive conference environment.

Venue accessibility may include:

- Accessible entrances
- Step-free access where available
- Accessible restrooms
- Elevator access
- Accessible seating arrangements

Participants requiring specific accessibility assistance are encouraged to contact the Conference Secretariat in advance.

Venue Technology

[IMAGE: Professional AV and Conference Technology Setup]

The conference venue will support the technical requirements of scientific presentations.

Expected facilities may include:

- High-quality projection/display systems
- Professional audio equipment
- Wireless microphones

- Presentation computers or connectivity
- High-speed internet access
- Technical support
- Digital presentation facilities

Final technical specifications will depend on the confirmed venue.

Conference Room Arrangement

[IMAGE: Conference Room Seating Layout]

The venue will be arranged to support different programme formats.

Main Auditorium

For:

Keynote Lectures • Plenary Lectures • Opening Ceremony • Panel Discussions • Closing Ceremony

Technical Rooms

For:

Oral Presentations • Invited Talks • Thematic Sessions

Poster Area

For:

Poster Presentations • Scientific Interaction • Young Researcher Presentations

Exhibition Area

For:

Sponsors • Exhibitors • Industry Participation

Venue Location Map

[MAP: Interactive Map Showing the Conference Venue in Berlin]

The interactive map should display:

📍 **MatAi 2027 Conference Venue**

The map should also identify nearby:

- Berlin Brandenburg Airport
- Berlin Hauptbahnhof
- U-Bahn stations
- S-Bahn stations
- Recommended hotels
- Restaurants
- Major landmarks
- Taxi / transport points

[BUTTON: GET DIRECTIONS]

The final map location will be updated after confirmation of the conference venue.

Location in Berlin

[IMAGE: Berlin City Map / Berlin Skyline]

The conference venue will be selected with consideration for accessibility, public transportation, accommodation, and participant convenience.

Berlin's extensive transportation network provides connections between the city centre, airport, railway stations, hotels, research institutions, and major attractions.

Nearby Accommodation

[IMAGE: High-quality Berlin Hotel Exterior]

Participants will have access to a range of accommodation options near the conference venue.

Possible accommodation categories include:

- Conference Hotels
- International Hotels
- Business Hotels
- Boutique Hotels
- Serviced Apartments
- Budget Accommodation

Once the venue is confirmed, the website can provide a list of recommended hotels with:

Hotel Name • Distance from Venue • Address • Website • Booking Information

Nearby Services

[IMAGE: Berlin Local Area / Street View]

Depending on the final venue location, participants may have convenient access to:

- Restaurants and cafés
- Hotels
- Pharmacies
- Supermarkets
- Banks and ATMs
- Public transportation
- Taxi services
- Tourist information
- Business services

A detailed local-area guide will be provided once the venue location is finalized.

Conference Venue Access

[IMAGE: Participants Entering a Conference Venue]

Participants should arrive at the venue with sufficient time for registration and security procedures.

Recommended Arrival

First-time participants: Allow additional time to locate the venue and complete registration.

Speakers: Arrive early enough to check presentation arrangements with the technical team.

Poster presenters: Follow the poster installation and presentation instructions provided by the Conference Secretariat.

Venue Code of Conduct

[IMAGE: Professional Conference Audience]

Participants are expected to maintain a professional and respectful environment throughout the conference.

All attendees are requested to:

- Respect speakers and fellow participants
- Follow venue regulations
- Maintain professional conduct
- Observe session schedules
- Follow safety instructions
- Respect exhibition and poster areas
- Follow photography and recording policies
- Keep shared spaces clean

Venue Safety

[IMAGE: Conference Venue Safety / Emergency Exit Sign]

Participants should familiarize themselves with the venue's emergency exits and safety procedures upon arrival.

In case of an emergency, participants should follow the instructions of venue personnel and Conference Secretariat representatives.

Conference Venue Highlights

[IMAGE: 4-image collage — Auditorium, Presentation Room, Poster Area, Networking Area]

Professional Scientific Environment

Designed to support high-quality academic and technical exchange.

Modern Presentation Facilities

Suitable for keynote, plenary, invited, and oral presentations.

Dedicated Poster & Exhibition Areas

Supporting scientific interaction and industry participation.

Networking Environment

Spaces for researchers, academics, engineers, and industry professionals to connect.

Accessible Location

Convenient access to Berlin's public transportation network.

International Setting

A suitable environment for global scientific participation and interdisciplinary collaboration.

Explore Berlin

[IMAGE: Berlin Brandenburg Gate / Reichstag / Museum Island Collage]

Beyond the conference programme, participants can explore Berlin's historic, cultural, scientific, and architectural attractions.

Recommended places include:

- Brandenburg Gate
- Reichstag Building
- Museum Island
- Berlin Cathedral
- East Side Gallery
- Charlottenburg Palace
- Alexanderplatz
- Potsdamer Platz
- Tiergarten

For detailed travel information, please visit the **Travel Information** section.

Venue Information for Speakers

[IMAGE: Speaker Presenting at International Conference]

Speakers will receive detailed information regarding:

- Session assignment
- Presentation format
- Presentation duration
- Technical requirements
- Presentation submission
- Speaker preparation
- Session room
- Arrival instructions

The Conference Secretariat will provide speakers with the relevant information before the conference.

Venue Information for Exhibitors

[IMAGE: Professional Exhibition Booth]

Exhibitors will receive information regarding:

- Exhibition space
- Booth arrangements
- Setup and dismantling
- Exhibition hours
- Technical requirements
- Branding and signage
- Shipping and delivery procedures
- On-site coordination

Detailed exhibitor guidelines will be provided following confirmation of participation.

Venue Information at a Glance

Category	Details
Conference	MatAi 2027
Location	Berlin, Germany
Dates	October 13–14, 2027
Conference Hours	09:00 AM – 06:30 PM
Main Auditorium	Keynotes, Plenaries & Ceremonies
Technical Rooms	Oral & Invited Presentations
Poster Area	Poster Presentations
Exhibition Area	Sponsors & Exhibitors
Networking Areas	Scientific & Professional Interaction
Registration Desk	Participant & Speaker Assistance
Airport	Berlin Brandenburg Airport (BER)
Main Railway Station	Berlin Hauptbahnhof

IMPORTANT VENUE NOTICE

[IMAGE: Professional Berlin Conference Venue – Wide Banner]

The **MatAi 2027 Conference Venue** will be officially announced and updated on this page once the venue booking is finalized.

Participants should refer to the official conference website for the latest information regarding:

Venue Name • Full Address • Room Numbers • Access Instructions • Interactive Map • Parking • Accommodation • Transportation • On-Site Facilities

---

WELCOME TO MATai 2027

[HERO IMAGE: Modern Berlin Conference Venue + Berlin Skyline]

Science. Engineering. Artificial Intelligence. Berlin.

Join the international scientific community in **Berlin, Germany**, for **MatAi 2027**, a two-day conference bringing together advances in materials science, engineering, computational research, and artificial intelligence.

October 13–14, 2027 | Berlin, Germany

Partner with MatAi 2027

International Conference on Materials Science, Engineering & Artificial Intelligence

October 13–14, 2027 | Berlin, Germany

[HERO IMAGE: Modern scientific conference exhibition hall with technology and materials science displays]

MatAi 2027 brings together researchers, scientists, engineers, academics, technology specialists, industry professionals, and R&D organizations working across **Materials Science, Engineering, Artificial Intelligence, Machine Learning, Materials Informatics, Computational Science, Advanced Manufacturing, and Sustainable Materials**.

The **Sponsors & Exhibition Programme** provides organizations with opportunities to present technologies, research capabilities, products, services, and solutions to an international scientific and technical audience.

Whether your organization is an established technology company, research institution, scientific equipment provider, software developer, advanced materials manufacturer, engineering organization, or emerging technology company, MatAi 2027 offers flexible ways to participate.

WHY PARTNER WITH MatAi 2027?

[IMAGE: Researchers and industry professionals networking at a scientific conference]

Partnering with MatAi 2027 provides opportunities to:

- Present your organization to an international scientific audience
- Increase visibility among researchers and technical professionals
- Showcase products, technologies, equipment, and services
- Connect with universities and research institutions
- Engage with academic and industrial R&D communities
- Develop professional and research collaborations
- Participate in technical and industry discussions
- Demonstrate emerging technologies and solutions
- Strengthen your presence within the materials and AI ecosystem
- Build relationships with potential research and industry partners

---

SPONSORSHIP PACKAGES

DIAMOND SPONSOR

€10,000

Limited to 2 organizations

The Diamond Sponsorship is the highest-level partnership package, providing prominent visibility throughout the conference and enhanced opportunities for direct engagement.

Benefits

✓ Premium Diamond Sponsor recognition
✓ Premium logo placement on the conference website
✓ Logo on the main conference backdrop
✓ Logo on selected conference signage

✓ Logo in the official conference programme
✓ Logo in selected digital conference communications
✓ Premium exhibition booth — **3 m × 3 m**
✓ **5 complimentary full conference registrations**
✓ Priority exhibition location
✓ Opportunity for a **20-minute Industry Presentation**
✓ Company profile on the conference website
✓ Promotional material inclusion in delegate kits
✓ Recognition during Opening Ceremony
✓ Recognition during Closing Ceremony
✓ Sponsor acknowledgement on selected conference slides
✓ One full-page advertisement in the conference programme
✓ Dedicated sponsor recognition on conference social media
✓ Opportunity to display company banner/materials
✓ Access to networking and exhibition activities

Suitable For

Technology companies, advanced materials manufacturers, major R&D organizations, scientific equipment providers, engineering companies, AI/ML companies, and established industry partners.

PLATINUM SPONSOR

€7,500

Limited to 4 organizations

The Platinum package provides strong visibility combined with exhibition and direct engagement with conference participants.

Benefits

✓ Platinum Sponsor recognition
✓ Logo on conference website
✓ Logo on conference backdrop
✓ Logo in conference programme
✓ Logo on selected venue signage
✓ Premium exhibition booth — **3 m × 3 m**
✓ **4 complimentary full conference registrations**
✓ Priority exhibition placement
✓ Opportunity for a **15-minute Industry Presentation**
✓ Company profile on conference website

✓ Promotional material in delegate kits
✓ Recognition during Opening Ceremony
✓ Recognition during Closing Ceremony
✓ Sponsor acknowledgement on conference slides
✓ Half-page advertisement in conference programme
✓ Social media recognition
✓ Networking access

Suitable For

Engineering companies, technology providers, research organizations, scientific instrument manufacturers, software companies, and industrial R&D organizations.

GOLD SPONSOR

€4,500

Limited to 6 organizations

The Gold package provides a balanced combination of exhibition, brand visibility, and participant engagement.

Benefits

✓ Gold Sponsor recognition
✓ Logo on conference website
✓ Logo in conference programme
✓ Logo on selected conference signage
✓ Standard exhibition booth — **3 m × 2 m**
✓ **3 complimentary full conference registrations**
✓ Company profile on conference website
✓ Promotional material inclusion in delegate kits
✓ Recognition during Opening Ceremony
✓ Recognition during Closing Ceremony
✓ Sponsor acknowledgement on selected conference slides
✓ Half-page advertisement in conference programme
✓ Social media recognition
✓ Networking and exhibition access

Suitable For

Materials companies, laboratories, engineering firms, scientific service providers, software companies, technology start-ups, and research organizations.

SILVER SPONSOR

€2,000

Limited to 8 organizations

The Silver package provides professional brand visibility and participation in the conference exhibition environment.

Benefits

✓ Silver Sponsor recognition
✓ Logo on conference website
✓ Logo in conference programme
✓ Logo on selected venue signage
✓ Standard exhibition space — **2 m × 2 m**
✓ **2 complimentary full conference registrations**
✓ Company profile on conference website
✓ Promotional material inclusion in delegate kits
✓ Recognition during Opening Ceremony
✓ Sponsor acknowledgement on selected conference slides
✓ Social media recognition
✓ Networking access

Suitable For

Research groups, specialist technology providers, scientific service companies, start-ups, laboratories, publishers, and emerging businesses.

BRONZE / SUPPORTING SPONSOR

€1,500

Limited availability

A cost-effective option for organizations seeking visibility and association with the scientific programme.

Benefits

✓ Supporting Sponsor recognition
✓ Logo on conference website

✓ Logo in conference programme
✓ Logo on selected sponsor signage

EXHIBITION OPPORTUNITIES

Showcase Your Technology, Products & Research

[IMAGE: Scientific exhibition booth / materials technology demonstration]

The MatAi 2027 exhibition area provides organizations with a dedicated environment to demonstrate technologies, products, services, equipment, software, and research capabilities.

STANDARD EXHIBITION BOOTH

€3,500

Booth Size: 3 m × 2 m

Includes

✓ Dedicated exhibition space
✓ Company name and logo display
✓ Listing on conference website
✓ Listing in conference programme
✓ **2 exhibition staff passes**
✓ Table and chairs
✓ Standard booth identification
✓ Access to exhibition and networking areas
✓ Opportunity to distribute company materials

PREMIUM EXHIBITION BOOTH

€4,500

Booth Size: 3 m × 3 m

Includes

✓ Premium booth location
✓ Larger exhibition space
✓ Company logo on exhibition area signage
✓ Company profile on conference website
✓ **3 exhibition staff passes**
✓ Table and chairs
✓ Standard booth furniture

✓ Priority placement
✓ Promotional material display
✓ Networking access
✓ Recognition as Premium Exhibitor

START-UP & EMERGING TECHNOLOGY PAVILION

€1,500

Designed specifically for early-stage technology companies, research spin-offs, and emerging ventures.

Includes

✓ Dedicated display table
✓ Company logo on conference website
✓ Start-Up Pavilion listing
✓ **1 complimentary conference registration**
✓ Opportunity to display product or technology information
✓ Networking access
✓ Start-Up recognition during the conference

Suitable For

- AI and Machine Learning Start-ups
- Materials Technology Start-ups
- Scientific Software Companies
- Advanced Manufacturing Start-ups
- Materials Informatics Companies
- Laboratory Technology Ventures
- Engineering Technology Start-ups

EXHIBITOR BENEFITS

[IMAGE: Industry representatives interacting with researchers at an exhibition booth]

Exhibitors can use their space to:

- Demonstrate products and technologies
- Display scientific equipment
- Present software platforms
- Showcase materials and samples
- Demonstrate AI and ML solutions

- Introduce laboratory technologies
- Present research services
- Meet potential customers and collaborators
- Connect with researchers and engineers
- Discuss industry–academia collaboration

SPECIAL SPONSORSHIP OPPORTUNITIES

In addition to the main sponsorship packages, organizations may support specific conference activities.

KEYNOTE SESSION SPONSOR

€1,500

Benefits

✓ Sponsor recognition associated with one keynote session
✓ Logo displayed on session introduction slide
✓ Logo on selected session signage
✓ Sponsor recognition on conference website
✓ Company profile on sponsor page
✓ **2 complimentary conference registrations**
✓ Acknowledgement by the session moderator

PLENARY SESSION SPONSOR

€1,500

Benefits

✓ Plenary Session Sponsor recognition
✓ Logo on session slides
✓ Website recognition
✓ Programme recognition
✓ **2 complimentary registrations**
✓ On-site sponsor acknowledgement

ADVERTISING SPONSOR

€1,500

Promote Your Organization Across MatAi 2027

The **Advertising Sponsor** package provides organizations with dedicated promotional visibility across selected MatAi 2027 conference communication channels and materials.

Benefits

✓ Advertising Sponsor recognition
✓ Company logo on the conference website
✓ Company advertisement in the official conference programme
✓ **Full-page advertisement** in the conference programme
✓ Company name and profile on the sponsor page
✓ Logo on selected digital conference communications
✓ Promotional banner placement on selected conference materials
✓ Social media recognition
✓ Opportunity to provide an approved digital or printed promotional material
✓ **1 complimentary full conference registration**
✓ Sponsor acknowledgement during the conference

Suitable For

- Materials & Technology Companies
- Scientific Equipment Providers
- Engineering Companies
- AI & Software Companies
- Research Institutions
- Laboratories
- Publishers
- Scientific Service Providers
- Technology Start-ups

Advertising materials are subject to organizer approval and applicable artwork specifications.

COFFEE BREAK SPONSOR

€1,500

Benefits

✓ Recognition as Coffee Break Sponsor
✓ Logo at refreshment area
✓ Logo on selected conference signage
✓ Website recognition
✓ Programme recognition
✓ **1 complimentary registration**

LUNCH SPONSOR

€2,500 / Day

Benefits

✓ Recognition as Lunch Sponsor
✓ Logo at dining area
✓ Sponsor acknowledgement in programme
✓ Website recognition
✓ On-site signage
✓ **2 complimentary registrations**

CONFERENCE RECEPTION SPONSOR

€3,500

Benefits

✓ Reception Sponsor recognition
✓ Prominent signage at reception
✓ Website recognition
✓ Programme recognition
✓ Sponsor acknowledgement
✓ **3 complimentary registrations**

CONFERENCE KIT SPONSOR

€2,000

Support the official delegate materials provided to conference participants.

Benefits

✓ Logo on selected conference materials
✓ Sponsor recognition on website
✓ Programme recognition
✓ Opportunity to provide approved promotional material
✓ **2 complimentary registrations**

LANYARD & BADGE SPONSOR

€1,500

Benefits

✓ Company logo on conference lanyards or badges
✓ Website recognition
✓ Programme recognition
✓ On-site sponsor acknowledgement
✓ **1 complimentary registration**

Production specifications and artwork approval apply.

AWARDS & YOUNG RESEARCHER SPONSOR

€2,000

Support recognition of emerging researchers participating in MatAi 2027.

Benefits

✓ Recognition as Young Researcher / Awards Sponsor
✓ Logo associated with the award presentation
✓ Website recognition
✓ Programme recognition
✓ On-site acknowledgement
✓ **2 complimentary registrations**

DELEGATE KIT INSERT

€500

Sponsors may provide an approved flyer, brochure, catalogue, or promotional item for inclusion in delegate materials.

Requirements

- Materials supplied by sponsor
- Maximum size and quantity subject to organizer approval
- Production and delivery costs are the responsibility of the sponsor

---

INDUSTRY PRESENTATION

15-Minute Industry Presentation — €1,500

A dedicated short presentation opportunity for organizations wishing to introduce a technology, research application, engineering solution, or industry perspective.

Suitable Topics

- Advanced Materials Technologies
- AI & Machine Learning Solutions
- Materials Characterization Equipment
- Scientific Software
- Computational Materials Platforms
- Advanced Manufacturing Technologies
- Sustainable Materials Technologies
- Industrial R&D Applications

Important: Industry presentations are subject to scientific and programme approval and should provide relevant technical or research content rather than purely promotional material.

CUSTOM SPONSORSHIP

Build Your Own Partnership

MatAi 2027 also welcomes customized sponsorship arrangements for organizations with specific objectives.

Possible combinations include:

Exhibition Booth + Industry Presentation

Session Sponsorship + Exhibition Booth

Lunch Sponsorship + Exhibition

Young Researcher Awards + Branding

Conference Kit + Exhibition

Advertising + Exhibition

Technology Demonstration + Exhibition

Customized packages are subject to availability and organizer approval.

WHO CAN PARTICIPATE?

The Sponsors & Exhibition Programme welcomes organizations working in:

Materials & Manufacturing

- Advanced Materials
- Metals & Alloys
- Polymers
- Composites
- Ceramics
- Nanomaterials
- Additive Manufacturing

AI & Computational Technologies

- Artificial Intelligence
- Machine Learning
- Materials Informatics
- Scientific Computing
- Simulation Software
- Data Analytics
- Digital Twins

Scientific Technology

- Microscopy
- Spectroscopy
- Materials Characterization
- Laboratory Equipment
- Testing & Measurement

- Research Software

Engineering & Industry

- Engineering Services
- Manufacturing
- Automotive
- Aerospace
- Energy
- Electronics
- Semiconductor Technologies

Research & Academic Organizations

- Universities
- Research Institutes
- Laboratories
- Scientific Societies
- Publishers
- Technology Transfer Organizations

SPONSOR VISIBILITY

[IMAGE: Conference stage with sponsor logos / digital conference branding]

Depending on the selected package, sponsors may receive visibility through:

Digital Visibility

- Conference Website
- Sponsor Directory
- Digital Programme
- Conference Communications
- Social Media

On-Site Visibility

- Conference Backdrop
- Directional Signage
- Exhibition Area
- Registration Area
- Session Slides
- Sponsor Boards

Publication Visibility

- Conference Programme

- Delegate Materials
- Approved Promotional Inserts
- Advertisements

EXHIBITION GUIDELINES

[IMAGE: Professional exhibition floor plan]

Exhibition Hours

Exhibition activities will be scheduled around the scientific programme, coffee breaks, lunch, networking periods, and designated exhibition hours.

Exhibitor Responsibilities

Exhibitors are responsible for:

- Providing approved promotional materials
- Providing product samples where applicable
- Following venue regulations
- Meeting installation and dismantling deadlines
- Ensuring their display complies with safety requirements
- Arranging shipment and delivery of materials where required

Detailed technical and logistical instructions will be provided to confirmed exhibitors.

SPONSORSHIP TERMS

Pricing

All sponsorship and exhibition fees are stated in **EUR (€)**.

Applicable taxes, VAT, venue charges, payment processing fees, or other statutory charges, if applicable, will be communicated in the sponsorship agreement or invoice.

Availability

Sponsorship categories and exhibition spaces are subject to availability.

Premium positions may be allocated on the basis of confirmed booking and payment.

Logo & Artwork

Sponsors must provide logos and artwork in the required formats and within the deadlines specified by the Conference Secretariat.

Advertising Materials

All advertisements, promotional materials, banners, digital assets, and programme artwork are subject to organizer approval and must be submitted according to the specified artwork guidelines and deadlines.

Speaking Opportunities

Industry presentations are subject to programme approval and should contain relevant technical, scientific, engineering, or industry content.

Cancellation

Sponsorship and exhibition cancellation terms will be governed by the applicable sponsorship agreement.

BECOME A SPONSOR

Partner with MatAi 2027

[IMAGE: Scientific networking / industry-academic collaboration]

Connect your organization with an international community working at the intersection of:

Materials Science + Engineering + Artificial Intelligence

Whether you are seeking **brand visibility, technology demonstration, scientific engagement, industry networking, advertising exposure, or research collaboration**, MatAi 2027 offers flexible participation options.

Sponsorship Packages

Diamond — €10,000
Platinum — €7,500
Gold — €4,500
Silver — €2,000
Bronze — €1,500

Exhibition

Premium Booth — €4,500
Standard Booth — €3,500
Start-Up Pavilion — €1,500

Special Sponsorship

Keynote Session — €1,500
Plenary Session — €1,500
Advertising Sponsor — €1,500
Reception — €3,500
Lunch — €2,500/day
Coffee Break — €1,500
Conference Kit — €2,000
Awards — €2,000
Lanyard & Badge — €1,500
Industry Presentation — €1,500
Delegate Kit Insert — €500

MATai 2027

Science. Engineering. Artificial Intelligence. Industry.

October 13–14, 2027 | Berlin, Germany

Join the scientific and industrial community at MatAi 2027 and showcase your organization's contribution to the future of **materials innovation, intelligent engineering, and AI-enabled research**.

INFORMATION

Conference Information Page

International Conference on Materials Science, Engineering & Artificial Intelligence (MatAi 2027)
October 13–14, 2027 | Berlin, Germany

The Information section provides essential guidelines and policies for authors, speakers, presenters, delegates, students, exhibitors, sponsors, and other participants of MatAi 2027.

---

1. ABSTRACT SUBMISSION GUIDELINES

Call for Abstracts

MatAi 2027 welcomes original scientific and technical contributions covering materials science, engineering, artificial intelligence, computational research, materials informatics, advanced manufacturing, and related interdisciplinary fields.

Abstracts may be submitted for consideration under the following presentation categories:

- Keynote Presentation
- Plenary Presentation
- Invited Presentation
- Oral Presentation
- Poster Presentation

Submissions should present original research, significant technical findings, experimental or theoretical studies, computational investigations, methodological developments, or relevant interdisciplinary work.

Abstract Preparation

Authors should prepare abstracts using the following structure:

Title
A concise and informative title reflecting the research.

Authors & Affiliations
Full names of all authors, institutional affiliations, city, and country.

Background / Research Context
Briefly describe the scientific context and research problem.

Objectives
Clearly state the principal objectives or research questions.

Methodology
Summarize the experimental, theoretical, computational, analytical, or data-driven methods used.

Results / Findings
Present the principal results, observations, or scientific findings.

Conclusion
Summarize the main conclusions and scientific significance.

Keywords
Provide approximately 3–6 relevant keywords.

Submission Requirements

- Abstracts should be written in clear scientific English.
- The title should accurately represent the submitted research.
- Author names and affiliations should be checked carefully.
- Submitted work should be original.
- Plagiarized, fabricated, or misleading content will not be accepted.
- References may be included where appropriate.
- Tables, figures, equations, or special formatting should follow the submission instructions.
- The presenting author should be clearly identified.
- Abstracts should be submitted through the official submission process.

Abstract Review

Submitted abstracts may be evaluated based on:

- Scientific quality
- Originality
- Relevance to the conference scope
- Technical significance
- Clarity
- Methodological soundness
- Potential contribution to the field

The scientific committee may accept an abstract, request clarification or revision, recommend an alternative presentation category, or decline a submission that does not meet the conference requirements.

Abstract submission does not guarantee acceptance or a specific presentation category.

---

2. SPEAKER GUIDELINES

MatAi 2027 aims to maintain a structured and professional environment for scientific presentations.

Presentation Categories

- Keynote Lectures
- Plenary Lectures
- Invited Talks
- Oral Presentations
- Poster Presentations

Speaker Preparation

Speakers are requested to:

- Prepare content relevant to the accepted topic.
- Present scientifically accurate information.
- Clearly identify authors and institutional affiliations.
- Acknowledge collaborators and funding sources where applicable.
- Use appropriate scientific references.
- Avoid unsupported scientific claims.
- Submit presentation materials within the timeframe communicated by the organizers.
- Follow instructions provided by the session chair and technical team.

Presentation Format

Presentation format, technical requirements, session assignment, and allocated presentation time will be communicated to accepted speakers by the conference organizers.

Speakers should arrive at the designated presentation area before their session.

Speaker Checklist

Before the conference, speakers should confirm:

- Presentation title
- Author information
- Affiliation
- Presentation category
- Session assignment
- Presentation file
- Audio/video requirements
- Technical compatibility
- Registration status

---

3. CONFERENCE GUIDELINES

All participants are expected to follow the general scientific and organizational guidelines of MatAi 2027.

Participants should:

- Provide accurate registration and submission information.
- Follow the official conference schedule.
- Respect speakers, researchers, delegates, organizers, and staff.
- Maintain professional communication.
- Follow venue safety and access requirements.
- Use conference facilities responsibly.
- Respect intellectual property and research ownership.
- Follow photography, recording, and media policies.
- Comply with applicable laws and venue regulations.

The organizers reserve the right to modify schedules, sessions, speakers, or operational arrangements where necessary.

---

4. PARTICIPATION GUIDELINES

MatAi 2027 welcomes participation from:

- Researchers and Scientists
- University Faculty and Academics
- Materials Scientists
- Engineers and Technical Professionals
- AI and Machine Learning Specialists
- Computational Researchers
- PhD Scholars
- Postdoctoral Researchers
- Students and Early-Career Researchers
- Industry and R&D Professionals
- Technology and Manufacturing Professionals

Participants may attend as:

- Delegates
- Speakers
- Oral Presenters
- Poster Presenters
- Invited Participants
- Sponsors
- Exhibitors

Participants are responsible for providing accurate personal, professional, and registration information.

---

5. PRESENTATION GUIDELINES

Oral Presentation Guidelines

Presenters are encouraged to organize their presentation in a clear scientific sequence:

1. Title & Author Information
2. Research Background
3. Research Problem
4. Objectives
5. Methodology
6. Results
7. Discussion
8. Conclusions
9. Future Research Directions
10. Acknowledgements

Presentations should remain focused on the accepted research topic and comply with the presentation time communicated by the organizers.

Technical Preparation

Presenters should ensure that:

- Presentation files open correctly.
- Fonts and graphics display correctly.
- Figures and tables are readable.
- Videos and animations function properly.
- Audio is tested where applicable.
- The presentation is available in the required file format.

Presenters should coordinate with the technical team before their session when technical assistance is required.

Poster presentations provide an opportunity to communicate research findings through a concise visual format.

Recommended Poster Structure

- Title
- Authors
- Affiliations

- Background
- Objectives
- Methodology
- Results
- Discussion
- Conclusions
- References
- Acknowledgements

Posters should use:

- Clear section headings
- Readable text
- Appropriate figures and diagrams
- Relevant charts and tables
- Concise scientific explanations

Poster Display

Presenters should:

- Display the poster in the assigned location.
- Follow the poster dimensions communicated by the organizers.
- Be available during the designated poster session.
- Engage professionally with delegates and researchers.
- Remove the poster according to organizer instructions.

Detailed poster dimensions and technical specifications will be communicated to accepted presenters.

---

6. REGISTRATION GUIDELINES

Registration is required for participation in MatAi 2027 according to the applicable registration category.

Registration Categories

Depending on the final registration structure, categories may include:

- Speaker Registration
- Oral Presentation Registration
- Poster Presentation Registration
- Student Registration
- Academic Registration
- Industry Registration
- Delegate Registration
- Virtual Participation, where applicable

Registration Process

Participants should:

1. Select the appropriate registration category.
2. Complete the registration form.
3. Provide accurate participant information.
4. Complete the applicable registration payment.
5. Retain the registration confirmation.

Registration fees, deadlines, inclusions, and applicable taxes or charges are provided on the official Registration page.

Registration confirmation may be required for participation, presentation scheduling, certificates, and conference materials.

---

7. PUBLICATION & PROCEEDINGS

MatAi 2027 may provide publication and proceedings options for eligible conference contributions, subject to applicable scientific, editorial, and publisher requirements.

Conference Proceedings

Accepted abstracts and/or conference contributions may be considered for inclusion in conference-related proceedings or publications where applicable.

Publication consideration may depend on:

- Scientific quality
- Editorial requirements
- Submission format
- Review procedures
- Publisher requirements
- Author compliance
- Applicable publication policies

Acceptance for conference presentation does not automatically guarantee publication.

Research Integrity

Authors are responsible for ensuring that submitted work is:

- Original
- Properly attributed
- Correctly referenced
- Free from plagiarism
- Scientifically accurate

- Compliant with applicable research and publication standards

Authors should disclose relevant conflicts of interest where appropriate.

---

9. CERTIFICATES

Certificates may be issued to eligible participants according to their participation category.

Possible certificate categories include:

- Participation Certificate
- Speaker Certificate
- Oral Presentation Certificate
- Poster Presentation Certificate
- Keynote Speaker Certificate
- Plenary Speaker Certificate
- Invited Speaker Certificate
- Best Poster Certificate
- Young Researcher Recognition Certificate
- Award Certificate

Certificate eligibility may depend on successful registration and participation.

Participants should carefully verify their name, affiliation, and other details provided during registration or abstract submission.

---

10. AWARDS & RECOGNITION

MatAi 2027 may recognize selected scientific contributions based on research quality, presentation, relevance, innovation, and contribution to the conference.

Best Oral Presentation

Recognizes an outstanding oral presentation demonstrating strong scientific content, clarity, technical quality, and effective communication.

Best Poster Presentation

Recognizes an outstanding poster demonstrating scientific merit, clear visual presentation, research relevance, and effective communication.

Young Researcher Recognition

May recognize promising contributions from early-career researchers, PhD scholars, or young scientists.

Outstanding Scientific Contribution

May recognize a notable scientific or technical contribution demonstrating significant relevance to materials science, engineering, artificial intelligence, or related interdisciplinary research.

Awards may be evaluated by designated members of the Scientific Committee or Organizing Committee.

The organizers reserve the right to modify award categories or selection procedures where necessary.

---

11. CODE OF CONDUCT

MatAi 2027 is committed to maintaining a professional, respectful, inclusive, and scientifically responsible conference environment.

All participants are expected to:

- Treat other participants with professionalism and respect.
- Avoid harassment, discrimination, intimidation, or inappropriate conduct.
- Respect different scientific perspectives and professional backgrounds.
- Communicate respectfully during presentations and discussions.
- Respect intellectual property and research confidentiality.
- Follow venue rules and applicable laws.
- Use conference communication channels responsibly.

Unacceptable conduct may result in removal from a session or conference activity and, where appropriate, cancellation of participation.

Concerns regarding participant conduct should be reported to the conference organizing team.

---

12. TERMS & CONDITIONS

By registering for or participating in MatAi 2027, participants acknowledge and agree to the applicable conference terms and conditions.

Registration

Participants are responsible for selecting the appropriate registration category and providing accurate information.

Abstracts & Presentations

Submission and acceptance of an abstract do not guarantee a particular presentation format, session, speaker category, or schedule.

Program Changes

The organizers reserve the right to modify speakers, sessions, schedules, venues, or program arrangements when necessary.

Speaker Changes

In exceptional circumstances, an invited or scheduled speaker may be replaced, rescheduled, or withdrawn from the program.

Intellectual Property

Authors and presenters are responsible for ensuring that their presentation materials do not infringe third-party intellectual property rights.

Photography & Recording

Conference activities may be photographed, recorded, or documented for legitimate conference communication, reporting, archival, or promotional purposes, subject to applicable policies and permissions.

Participant Information

Information provided during registration and abstract submission may be used for conference administration, communication, scheduling, certificates, and related organizational purposes in accordance with the Privacy Policy.

---

13. CANCELLATION & REFUND POLICY

Participants who are unable to attend MatAi 2027 may request cancellation of their registration subject to the following refund schedule.

Refund Schedule

Cancellation Period	Applicable Refund
60 days or more before the conference	**60% refund**
50–59 days before the conference	**50% refund**
40–49 days before the conference	**50% refund**
30–39 days before the conference	**30% refund**

Cancellation Period	Applicable Refund
Less than 30 days before the conference	No refund

Cancellation Request

All cancellation requests must be submitted **in writing to the conference organizing team** through the official conference contact channel.

The cancellation date will be considered the date on which the written request is received by the organizing team.

Participants should provide:

- Full Name
- Registration ID, if applicable
- Affiliation / Organization
- Registration Category
- Registration Date
- Payment / Transaction Reference, where required

Refund Processing

Approved refunds will be processed following verification of the cancellation request and payment.

Refunds will normally be made through the original payment method where technically and administratively possible.

Processing time may vary depending on the payment provider, bank, or financial institution.

Administrative & Transaction Charges

Applicable payment gateway fees, bank charges, transaction fees, currency conversion charges, or administrative processing fees may be deducted from the refundable amount where applicable.

Non-Refundable Expenses

The following expenses are generally the responsibility of the participant and are not covered by the registration refund policy:

- Visa expenses
- Travel expenses
- Accommodation expenses
- Travel insurance
- Bank charges
- Currency conversion charges
- Third-party service charges

- Other personal expenses

Transfer of Registration

Where permitted, participants may request to transfer their registration to another eligible participant instead of requesting a refund.

All transfer requests are subject to approval by the conference organizing team.

Speaker & Presenter Cancellation

Speakers and presenters who are unable to participate should notify the organizers as early as possible.

Cancellation of a presentation does not automatically qualify for a refund outside the applicable refund schedule.

Conference Postponement or Cancellation

If the conference is postponed, relocated, or cancelled due to circumstances beyond the reasonable control of the organizers, the organizing team will communicate the available arrangements to registered participants.

Depending on the circumstances, participants may be offered registration transfer, revised participation arrangements, or applicable refund options.

Force Majeure

The organizers shall not be responsible for circumstances beyond their reasonable control, including natural disasters, governmental restrictions, public emergencies, transportation disruptions, venue-related circumstances, or other events that materially affect the conference.

The organizers will make reasonable efforts to communicate alternative arrangements.

Important Notice

Participants are advised to consider the applicable cancellation period before making travel, accommodation, visa, or other arrangements.

The organizers reserve the right to review exceptional cancellation cases at their discretion.

---

14. PRIVACY POLICY

MatAi 2027 respects the privacy of participants, speakers, authors, sponsors, exhibitors, and other stakeholders.

Information We May Collect

Information provided through registration, abstract submission, speaker forms, correspondence, or related conference activities may include:

- Name
- Professional title
- Institution / Organization
- Country
- Email address
- Contact information
- Abstract information
- Presentation information
- Registration details
- Payment confirmation information

Use of Information

Information may be used to:

- Process registrations.
- Process abstract submissions.
- Organize scientific sessions.
- Communicate conference information.
- Prepare certificates and conference materials.
- Coordinate speakers and presenters.
- Process applicable payments.
- Provide administrative support.
- Communicate relevant conference updates.

Protection of Information

Reasonable administrative and technical measures may be used to protect participant information from unauthorized access, alteration, disclosure, or misuse.

Third-Party Services

Conference operations may involve third-party services for registration, payment processing, communication, website hosting, virtual participation, or other administrative functions.

Such third-party services may have their own privacy policies and terms.

Privacy Requests

Participants with questions regarding personal information or privacy matters may contact the MatAi 2027 organizing team through the official conference contact channels.

15. FREQUENTLY ASKED QUESTIONS

General Questions

What is MatAi 2027?

MatAi 2027 is the **International Conference on Materials Science, Engineering & Artificial Intelligence**, focusing on developments at the intersection of materials science, engineering, computational research, and artificial intelligence.

When will MatAi 2027 take place?

MatAi 2027 will be held on **October 13–14, 2027**.

Where will the conference be held?

The conference will take place in **Berlin, Germany**. Detailed venue information will be published by the organizers.

Who can attend MatAi 2027?

Researchers, scientists, academics, engineers, students, PhD scholars, postdoctoral researchers, industry professionals, AI specialists, materials scientists, and professionals working in related fields may participate.

Abstract Submission

Can I submit an abstract for an oral presentation?

Yes. Original research may be submitted for consideration as an oral presentation, subject to scientific review and program availability.

Can I submit a poster?

Yes. Poster submissions are welcomed in areas relevant to the conference scope.

Can I submit more than one abstract?

Multiple submissions may be considered subject to the applicable submission requirements and program capacity.

Does submitting an abstract guarantee acceptance?

No. Abstracts are subject to scientific and technical review.

Can my presentation category be changed?

Yes. The Scientific Committee or Organizing Committee may recommend an alternative presentation format based on scientific relevance, program requirements, and availability.

Registration

Do I need to register to present my research?

Accepted presenters are generally required to complete the applicable registration process to participate in the conference.

What does registration include?

Registration inclusions depend on the selected registration category and the package published on the official Registration page.

Can I register after the early registration deadline?

Registration may remain available after an early registration deadline, subject to availability and the applicable registration fee.

Will I receive registration confirmation?

Yes. Confirmation may be provided after successful completion of registration and payment.

Presentation

How long will my presentation be?

The allocated presentation time will be communicated by the conference organizers according to the presentation category and final scientific program.

What format should my presentation use?

Technical specifications and accepted presentation formats will be communicated to presenters before the conference.

Can I update my presentation?

Presenters may generally update their presentation materials before the conference according to the instructions and deadlines communicated by the organizers.

Poster Presentation

What size should my poster be?

Poster dimensions and display specifications will be communicated to accepted poster presenters.

Do I need to be present during the poster session?

Presenters are expected to be available during their designated poster session to discuss their research with participants.

Certificates & Awards

Will I receive a certificate?

Eligible registered participants and presenters may receive a certificate corresponding to their participation category.

Are awards available?

MatAi 2027 may provide recognition for selected oral presentations, poster presentations, young researchers, and other scientific contributions.

Travel & Visa

Do I need a visa to attend the conference?

Visa requirements depend on your nationality and individual circumstances. Participants should check the applicable German and Schengen visa requirements well in advance.

Can I request an invitation letter?

Eligible registered participants may request a conference invitation letter according to the applicable conference procedure.

An invitation letter does not guarantee visa approval.

Is accommodation provided?

Participants are responsible for arranging their own accommodation unless an official accommodation arrangement is announced by the organizers.

Publication

Will my abstract be published?

Accepted abstracts may be included in conference materials or proceedings where applicable.

Does conference acceptance guarantee journal publication?

No. Journal publication is subject to the independent editorial and peer-review requirements of the relevant journal or publisher.

Cancellation & Refund

Can I cancel my registration?

Yes. Cancellation requests may be submitted according to the applicable Cancellation & Refund Policy.

What is the refund structure?

- **60 days or more:** 60% refund
- **50–59 days:** 50% refund
- **40–49 days:** 50% refund
- **30–39 days:** 30% refund
- **Less than 30 days:** No refund

Are travel and accommodation expenses refundable?

No. Travel, accommodation, visa, insurance, and other personal expenses are the responsibility of the participant.

What happens if the conference is postponed?

The organizers will communicate the available participation, transfer, or refund arrangements to registered participants according to the circumstances.

REGISTRATION PROCESS

Step 1 — Select Your Category

Choose the appropriate registration, exhibition, or sponsorship category.

Step 2 — Complete the Registration Form

Provide accurate participant or organization information.

Step 3 — Complete Payment

Pay the applicable fee according to the registration period.

Step 4 — Receive Confirmation

Confirmation will be issued following successful verification of registration and payment.

Step 5 — Receive Conference Information

Registered participants, exhibitors, and sponsors will receive the relevant participation instructions and conference information.

PAYMENT INFORMATION

All fees are stated in **EUR (€)**.

Participants and organizations are responsible for selecting the correct category and applicable registration period.

Applicable **taxes/VAT, bank charges, payment gateway fees, transaction charges, or currency conversion charges**, where applicable, may be additional to the published fees.

Payment instructions will be provided through the official conference registration process.

REGISTRATION TERMS & CONDITIONS

1. Registration is confirmed after successful payment and verification.
2. Participants must provide accurate registration information.
3. Student registration may require valid proof of student status.
4. Abstract acceptance and registration are separate processes.
5. Registration does not guarantee publication.
6. Accepted presenters are expected to participate according to the assigned program.
7. The organizers may make reasonable changes to speakers, sessions, schedules, or venue arrangements.
8. Registration transfers require prior approval.
9. Visa approval is the responsibility of the participant.
10. Travel, accommodation, insurance, and visa expenses are not included unless explicitly stated.
11. Exhibition and sponsorship benefits are subject to the applicable package and organizer approval.
12. Promotional, advertising, and branding materials must comply with organizer specifications.
13. Participants and organizations must comply with the MatAi 2027 Code of Conduct.
14. The organizers reserve the right to refuse or withdraw participation where serious violations of conference policies occur.

CANCELLATION & REFUND POLICY

Participants who are unable to attend MatAi 2027 may request cancellation according to the following schedule:

Cancellation Period	Refund
60 days or more before the conference	**60% refund**
50–59 days before the conference	**50% refund**
40–49 days before the conference	**50% refund**

30–39 days before the conference	**30% refund**
Less than 30 days before the conference	**No refund**

Cancellation Procedure

Cancellation requests must be submitted **in writing through the official conference contact channel**.

The effective cancellation date will be the date on which the written request is received by the organizing team.

Refund Processing

Approved refunds will normally be processed through the original payment method where technically possible.

Payment gateway, bank, transaction, currency conversion, and applicable administrative charges may be deducted from the refundable amount.

Non-Refundable Expenses

The following are generally not covered by the registration refund:

- Visa expenses
- Travel expenses
- Accommodation
- Travel insurance
- Bank charges
- Currency conversion charges
- Third-party service charges
- Other personal expenses

Exhibition & Sponsorship Cancellation

Exhibition and sponsorship cancellations are subject to the same published cancellation schedule unless a separate written agreement specifies different terms.

Benefits already delivered or services already provided may not be refundable.

Conference Postponement or Cancellation

If MatAi 2027 is postponed, relocated, or cancelled due to circumstances beyond the reasonable control of the organizers, registered participants, exhibitors, and sponsors will be informed of the available arrangements.

IMPORTANT REGISTRATION NOTICE

Early Bird fees represent the base published rates. Mid-Term fees are €100 higher than the Early Bird rates, and On-Spot fees are €200 higher than the Early Bird rates.

The applicable fee is determined by the date on which the registration, exhibition booking, or sponsorship commitment is completed according to the official conference registration schedule.
